FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

1. CORPORATE STATUS AND ACTIVITIES

Covington Fund II Inc. (the “Fund”), originally incorporated under the laws of Ontario on September 20, 1999, was continued under the Canada Business Corporations Act effective November 29, 2010. The Fund is registered as a Labour-Sponsored Investment Fund Corporation (“LSIF”) under the *Community Small Business Investment Funds Act* (Ontario) (the “Ontario Act”) and as a Labour-Sponsored Venture Capital Corporation (“LSVCC”) under the *Income Tax Act* (Canada) (the “Act”). The address of the Fund’s registered office is 36 Distillery Lane, Suite 440, Toronto, Ontario M5A 3C4. These financial statements were authorized for issue by the Fund’s Board of Directors on April 17, 2020.

The investment objective of the Fund is to earn long term capital appreciation on part of its investment portfolio and current yield and early return of capital on the remainder of its investment portfolio.

The Manager of the Fund is Covington Capital Corporation (“Covington” or the “Manager”). The Administrator of the Fund is CI Investments Inc. (the “Fund Administrator”). The Fund has two Co-Sponsors, the Canadian Police Association (“CPA”) and the Association of Canadian Financial Officers (“ACFO”) (the “Co-Sponsors”).

The Fund is currently closed to new subscriptions. Redemptions of the Fund have been temporarily halted. See Note 6.

2. BASIS OF PRESENTATION

These financial statements have been prepared in compliance with International Financial Reporting Standards (“IFRS”) applicable to the preparation of interim financial statements including IAS 34, *Interim Financial Reporting*, as published by the International Accounting Standards Board (“IASB”).

The financial statements have been prepared on a going concern basis using the historical-cost convention. However, the Fund is an investment entity and primarily all financial assets and financial liabilities are measured at fair value in accordance with IFRS. Accordingly, the Fund’s accounting policies for measuring the fair value of investments and derivatives are consistent with those used in measuring the Net Asset Value for transactions with unitholders. In applying IFRS, these financial statements include estimates and assumptions made by management that affect the reported amounts of assets, liabilities, income, and expenses during the reporting periods. However, existing circumstances and assumptions may change due to market changes or circumstances arising beyond the control of the Fund. Such changes are reflected in the assumptions when they occur.

These financial statements are presented in Canadian dollars, which is the Fund’s functional currency.

3. SIGNIFICANT ACCOUNTING POLICIES

Adoption of IFRS 9 Financial Instruments

Effective September 1, 2018, the Fund retrospectively adopted IFRS 9 *Financial Instruments* (“IFRS 9”) (without restatement). The new standard requires financial assets to be either carried at amortized cost, or at fair value with changes in fair value recognized in profit and loss (“FVTPL”) or in other comprehensive income (“FVOCI”) based on the Fund’s business model for managing financial assets and the contractual cash flow characteristics of the financial assets. The Fund manages its investments in financial assets with the objective of realizing cash flows through both the sale of the assets and income generated from those assets. The Manager makes decisions based on the assets’ fair values and manages the assets to realize those fair values.

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Upon transition to IFRS 9, the Fund's financial assets and financial liabilities previously designated as FVTPL or classified as held for trading under IAS 39 *Financial Instruments: Recognition and Measurement* ("IAS 39") continue to be classified as FVTPL under IFRS 9. There were no changes in the measurement attributes for any of the Fund's financial assets and financial liabilities upon transition to IFRS 9. The Fund classifies and measures its investments based on both the Fund's business model for managing those financial assets and the contractual cash flow characteristics of the financial assets. The Fund's financial assets are managed and performance is evaluated on a fair value basis. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. The contractual cash flows of the Fund's debt securities are solely principal and interest, however, the securities are neither held for the purpose of collecting contractual cash flows nor held both for collecting contractual cash flows and for sale. The collection of contractual cash flows is only incidental to achieving the Fund's business model's objective. Consequently, these investments are measured at FVTPL. The Fund's obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount. All other financial assets and liabilities are measured at amortized cost, which approximates their fair value. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's effective interest rate.

Financial instruments

The Fund recognizes financial instruments at fair value upon initial recognition, inclusive of transaction costs in the case of financial instruments measured at amortized cost. Purchases and sales of financial assets are recognized at their trade date. The Fund's investments and liabilities are measured at FVTPL. The Fund's obligations for net assets attributable to holders of redeemable shares are presented at the redemption amount. All other financial assets and liabilities, such as accounts receivable, receivables for venture investments sold, income receivables, accounts payable, accrued expenses, conditional incentive participation amounts payable and redemptions payable, are measured at amortized cost, which approximates fair value due to their short term nature. Under this method, financial assets and liabilities reflect the amount required to be received or paid, discounted, when appropriate, at the contract's stated rates of interest.

Valuation of investments

At the financial reporting date, all investments having quoted market values and which are publicly traded on a recognized stock exchange, and are not otherwise restricted, are valued based on the last traded market price for financial assets and financial liabilities where the last traded price falls within the day's bid-ask spread. In circumstances where the last traded price is not within the bid-ask spread, the Manager determines the point within the bid-ask spread that is most representative of fair value based on the existing market conditions. The changes in fair value are recorded as unrealized appreciation (depreciation) of marketable securities.

Non-private fixed income securities, debentures or other debt instruments, including short-term investments, are valued at the quotation price from recognized investment dealers.

Venture investments in securities not having quoted market values or in restricted securities are recorded at estimated fair value. The fair values of the venture investments are determined by the Manager using recognized valuation methodology after considering: the history and nature of the business; operating results and financial conditions; the general economic, industry and market conditions; capital market and transaction market conditions; independent valuations of the business; contractual rights relating to the investment; comparable company trading and transaction multiples, where applicable, and other pertinent considerations.

For warrants that are not traded on a recognized securities exchange, where no market value is readily available, a valuation technique is used by maximizing the use of observable market inputs.

The process of valuing venture investments for which no published market exists is subject to inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for the investments.

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Investment entity

Under Investment Entities – Amendments to IFRS 10, the Fund has determined that it meets the definition of an investment entity under IFRS 10, Consolidated Financial Statements, in that it obtains funds from one or more investors for the purpose of providing them with investment management services, commits to its investors that its business purpose is to invest funds solely for returns from capital appreciation, investment income, or both, and measures and evaluates the performance of substantially all of its investments on a fair value basis. Consequently, the Fund measures investments in other entities over which it has control, at FVTPL, and consolidates only those subsidiaries that provide services related to the Fund's investment activities, if any.

Subsidiaries, associates, joint ventures and structured entities

Subsidiaries are entities, including investments in other investment entities, over which a Fund has control. A Fund controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity, and has the ability to affect those returns through its power over the entity. Associates and joint ventures are investments over which a Fund has significant influence or joint control. A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factors in deciding who controls the entity, or when voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements.

IFRS 10, Consolidated Financial Statements, establishes principles for consolidation when one entity controls another but allows an exemption for the consolidation of subsidiaries of investment entities and requires such entities to recognize all subsidiaries at fair value through profit and loss. IAS 28, Investment in Associates, also allows investments in associates that are held by investment entities to be recognized and measured at fair value through profit and loss and to be accounted for in accordance with IAS 39, Financial Instruments: Recognition and Measurement and IFRS 13, Fair Value Measurement, with changes in fair value recognized in the Statements of Comprehensive Income in the period of change. As such, investments that are held as part of the Fund's investment portfolio are carried on the Statements of Financial Position at fair value even though the Fund may have control or significant influence over those companies. Investments in unconsolidated structured entities, if any, have been designated at FVTPL.

Income recognition and security holder transactions

Interest and income for distribution purposes and other income are recorded on an accrual basis. Dividend income is recognized on the ex-dividend date. Investment transactions are accounted for on a trade date basis and gains and losses from such transactions are calculated based on average cost excluding transaction costs. Net realized and unrealized gains (losses) on investments include the related foreign exchange gains and losses in the Statements of Comprehensive Income.

Commissions and other portfolio transaction costs

Transaction costs, such as brokerage commissions, if any, incurred in the purchase and sale of securities are included in "Other" in the Statements of Comprehensive Income.

Allocation of income and expenses

The Fund allocates income, expenses, realized and unrealized gains (losses) on the following basis: Income, realized and unrealized gains (losses) are apportioned on a weekly basis based on the net asset value ("NAV") of the respective Series to the total net asset value of the Fund as at the most recent valuation date.

Expenses are categorized and tracked as expenses directly attributable to a specific Series ("direct expenses") and those that are common expenses of the Fund. Direct expenses of a particular Series are recorded as a direct expense to that Series. Common expenses are allocated to each Series in a consistent manner as the income allocation described above.

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

3. SIGNIFICANT ACCOUNTING POLICIES (Cont'd)

Foreign currency translation

The Fund holds certain venture investments where the original purchase price was stated in US dollars. The cost is converted to Canadian dollars at the exchange rate in effect at the time of purchase and this amount becomes the historical cost of the investment. When a venture investment was purchased in US dollars, the fair value of these investments are adjusted weekly for the change in the exchange rate.

Increase (decrease) in net assets attributable to holders of redeemable shares

Increase (decrease) in net assets attributable to holders of redeemable shares per series of Class A Shares in the Statements of Comprehensive Income is calculated by dividing the increase (decrease) in net assets attributable to holders of redeemable shares per series by the weighted average number of shares outstanding for the relevant series of Class A Shares during the year.

4. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of financial statements requires the Manager to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates and the differences could be material. The most significant accounting judgements and estimates that the Fund has made preparing the financial statements relate to: determining the fair value of venture investments in securities not having quoted market values.

The Fund holds some investments not quoted on a recognized stock exchange. Such unlisted securities may be valued based on price quotations from recognized investment dealers, or if not available, determined by the Manager using valuation methodologies and considerations as described in Note 3. The process of valuing venture investments for which no published market exists is subject to inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for the investments.

5. UNCONSOLIDATED SUBSIDIARIES, ASSOCIATES AND STRUCTURED ENTITIES

The Fund meets the definition of an investment entity. Therefore, it does not consolidate its subsidiaries but rather, recognizes them as investments at fair value through profit and loss. The following represent the Fund's interest in unconsolidated subsidiaries, associates and structured entities and related ownership percentages:

Name	Relationship	February 29, 2020	Relationship	February 28, 2019
		Proportion of ownership and voting rights		Proportion of ownership and voting rights
Axela Inc.	-	-	Subsidiary	79%
Clek Inc.	Associate	25%	Associate	25%

Ripple Therapeutics Inc.	Associate	40%	-	-
WireIE Holdings International Inc.	-	-	Subsidiary	71%

The entities listed above are incorporated in Canada and have their principal place of business in Canada.

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

5. UNCONSOLIDATED SUBSIDIARIES, ASSOCIATES AND STRUCTURED ENTITIES (Cont'd)

Restrictions

The Fund may receive income in the form of dividends or interest from its investments in unconsolidated subsidiaries. While there are no significant restrictions on the transfer of funds from these entities to the Fund, they may be subject to Board of Directors approvals at the subsidiary level as required in any of the subsidiaries' shareholder agreements or other documents.

Commitments and Restricted Cash

The Fund has provided a guarantee of \$374 (2019 - \$444) to Clek Inc. in support of a credit facility. Should the guarantee be drawn, the amount would be recorded as a follow-on investment.

Support

During the periods ended February 29, 2020 and February 28, 2019, the Fund completed follow-on financings to support its unconsolidated subsidiaries as follows:

Company	Financings completed
Powerband Global Inc.	\$nil (2019 - \$14 in 12% demand promissory notes)
WireE International Inc.	\$nil (2019 - \$200 in demand promissory notes)

6. REDEEMABLE SHARES

The Fund has specific capital requirements and restrictions as outlined in the Fund's annual information form. The Fund's Statements of Changes in Net Assets Attributable to Holders of Redeemable Shares identify changes in the Fund's capital during the period. The Manager manages the capital of the Fund in accordance with the Fund's investment objective; including managing its liquidity in order to meet redemptions. The Fund is authorized to issue an unlimited number of Class A Shares in an unlimited number of series.

The Fund is registered as an LSIF under the Ontario Act, is an LSVCC under the Act and is required to invest a portion of capital raised in eligible small and medium sized Canadian businesses. Eligible businesses are generally privately owned and are characterized as having less than \$50 million in assets and less than 500 employees. In order to be classified as eligible investments, there are restrictions under the Act on the size, nature, and timing of the investments as outlined in the Fund's annual information form. These restrictions, if not met, could have negative impacts as the Fund could be levied with penalty taxes and, ultimately, have its LSIF status revoked. As at December 31, 2019, the Fund was in compliance with these restrictions related to both the Act and Ontario Act.

The following is a description of the authorized and issued share capital:

Unlimited number of Class A Shares, issuable from treasury, discretionary dividend entitlement, voting, restrictions on transfer and redemption, entitled to elect two directors.

25,000 Class B shares issuable only to the Co-Sponsors of the Fund, no dividend entitlement, voting entitled to elect remainder of directors.

Unlimited number of Class C shares, issuable in series. None issued or outstanding.

100 Class D Shares, voting, no dividend entitlement, redeemed upon issuance of Class B shares. None outstanding.

Balance, end of period	8,865,737	5,714,643

For the period ended February 28, 2019	Class A, Series I	Class A, Series II
Balance, beginning of period	8,914,877	5,760,376
Redeemed during the period	(15,389)	(10,984)
Balance, end of period	8,899,488	5,749,392

Redemption of Class A Shares

A shareholder may redeem all or part of the Class A Shares held at the NAV per Class A Share, subject to certain restrictions. One of these restrictions provides that the Fund is not required to redeem Class A Shares, in any financial year having an aggregate redemption price exceeding 20% of the NAV of the Fund as at the last day of the preceding fiscal year. The Fund cannot guarantee that it will be able to honour all redemption requests on the day in which they are made. Some of the Fund's investments are held in non-liquid securities. As such, if all shareholders were to redeem their shares at the same time, the Fund may need to liquidate these investments at lower values than currently ascribed and shareholders may not receive the NAV ascribed. The redemption of Class A Shares may be suspended in certain circumstances as permitted by applicable securities law.

On September 2, 2011, the Fund merged (the "Merger") with the New Generation Biotech (Equity) Fund Inc. ("NGBE"), The Vengrowth Investment Fund Inc., The Vengrowth II Investment Fund Inc., The Vengrowth III Investment Fund Inc., The Vengrowth Advanced Life Sciences Fund Inc., and The Vengrowth Traditional Industries Fund Inc. (collectively the "Merged Funds"). Pursuant to this transaction, the Fund acquired all of the assets and assumed the liabilities of the Merged Funds at fair value in exchange for units of the Fund based on the exchange ratio established on closing. At the time of the Merger, shareholders of the Merging Funds receiving Class A Shares, Series I or Series II had an option to redeem shares received pursuant to the merger. These redemptions were subject to a 15% redemption fee payable as income to the Fund.

Class A Shares, Series I and Series II issued pursuant to the merger to shareholders of the Merging Funds that did not redeem at the time of the transaction, were subject to additional redemption restrictions. Shareholders were able to redeem 15% per year of the shares they received on the effective date of the merger without redemption fees. This 15% restriction was in effect for four years and was not cumulative from one year to the next.

On September 2, 2015, the fourth anniversary of the Merger, the redemption restriction expired on all Class A Shares that have been issued and outstanding for eight years or more. On September 8, 2015, the Fund announced a temporary halt to redemptions of the Fund given the magnitude of redemption requests had the potential to eliminate the liquidity required to operate the Fund in an efficient manner. On January 18, 2016, the Fund re-opened to redemptions and was halted again after cumulative redemptions for fiscal 2016 reached approximately 20% of the NAV as at the last day of fiscal 2015, as contemplated in the Fund's prospectus disclosure.

On October 24, 2016 the Fund was re-opened and subsequently closed to reflect the objective of the Fund meeting the annual redemption requirement of approximately 20% of the NAV as at the last day of fiscal 2016, as contemplated in the Fund's prospectus disclosure.

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

6. REDEEMABLE SHARES (Cont'd)

On May 7, 2018, the Fund was re-opened for redemptions totalling approximately \$10,000. Upon completion of this redemption, the Manager announced that the primary focus is on optimizing the value of the investment holdings as it seeks out opportunities to exit the remaining portfolio investments over the next approximately 24-month period and return capital to unitholders.

For Class A Shares, Series I, a redemption fee is charged in the amount of up to 6% of the redemption price calculated as 0.75% of the redemption amount times the number of years or part years remaining until the eighth anniversary date of issue.

For Class A Shares, Series II, the redemption fee charged is dependent upon the origination of the Shares. For Class A Shares, Series II issued as transaction shares on account of former holders of the Merged Funds Series A or Series B, a redemption fee of up to 6% of the offering price is calculated as 0.75% of the redemption amount times the number of years or part years remaining until the eighth anniversary date of issue. For Class A Shares, Series II issued as transaction shares on account of former holders of the Merging Funds Series C shares, a redemption fee of up to 10% of the offering price calculated as 1.25% of the redemption amount times the number of years or part years remaining until the eighth anniversary date of issue.

Class B Shares

There are 199 Class B shares issued and outstanding to the Co-Sponsors (100 to the CPA and 99 to the ACFO). No Class B shares have been issued or redeemed in the periods ended February 29, 2020 and February 28, 2019.

7. NON-MONETARY TRANSACTION

During the period ended February 29, 2020, the Fund received a venture investment from an in-kind dividend from an investee company with a cost and fair value of \$5,478. During the period ended February 28, 2019, the Fund received shares with a cost and fair value of \$1,500 as a repayment of debt. The Fund did not realize any gain or loss on this transaction.

8. FEES AND EXPENSES

The Fund has entered into various agreements for the provision of management services including: fund management, sponsor, administration (including transfer agency), dealer and custodial services. Under the terms of certain of these agreements, the Fund may be required to pay fees based on the net asset value of the Fund.

The Fund has entered into agreements for the following annual fee rates, which, unless otherwise stated, are paid monthly based on the average net asset value of the Fund:

Fund management	1.35%
Co-Sponsor fees	0.16% (0.11% to the ACFO and 0.05% to the CPA)
Fund administration	0.45%
Dealer service fees	0.50% on Class A Shares, Series I and 0.50% on certain Class A Shares, Series II after the eighth year of issue

Covington is entitled to a conditional incentive participation amount (the "IPA") based on the performance of the Fund. Before any payment, the Fund must satisfy all of the following criteria: (i) The Fund must earn sufficient income to generate a rate of return on the eligible investment portfolio greater than the average of the 5-year GIC rate of the five major banks plus 2% on an annualized basis; (ii) for a particular investment, the Fund must earn a cumulative investment return at an average annual rate in excess of 12% since investment; and (iii) the Fund must fully recoup an amount equal to all principal invested in the particular investment (including for assets from the Merged Funds, the amounts invested by the predecessor Merged Fund).

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

8. FEES AND EXPENSES (Cont'd)

If these performance criteria as outlined in the Fund's offering documents and/or annual information form have been met, the Fund records Conditional IPA. Conditional IPA represents a provisional estimate of what would be payable to the manager if the entire venture portfolio of the Series were disposed of at fair value as at the reporting date, whereas IPA payable is based on actual realized transactions.

Subject to all of the above, the Fund pays an IPA of 15% of all income earned from the particular investment acquired from the Merged Funds since the date the investment was acquired by the Fund. For the purposes of future IPA payments, the Merged Funds' portfolio assets will be tracked with a hurdle that will have a cost equal to the fair value on September 2, 2011. With respect to the pre-merger Fund assets and any new investments (other than follow-on investments), the Fund will pay a 20% IPA if both the portfolio and specific investments achieve the criteria (i), (ii), and (iii) above.

The movement of Conditional IPA accruals or IPA payable is summarized below:

Expensed period ended February 29, 2020 \$	Expensed/(recovered) period ended February 28, 2019 \$	Accrued as at February 29, 2020 \$	Accrued as at February 28, 2019 \$	Paid period ended February 29, 2020 \$	Paid period ended February 28, 2019 \$
-	2	-	28	-	566

Directors of the Fund are entitled to receive an annual fee of \$35 each plus reimbursement of expenses incurred to attend meetings.

Members of the Funds' Independent Review Committee ("IRC") also serve another LSIF managed by Covington. The IRC members each receive total remuneration across all funds of \$12 per year, plus a per meeting fee of \$2 for the Chairperson and \$1.5 per meeting for each of the other two members. The annual fee is allocated across all of the Funds served by the IRC whereas per meeting fees are borne by the particular fund for which the meeting is called, if any.

VenGrowth contract amount

Upon completion of the merger transaction on September 2, 2011, the Fund acquired the assets of the VenGrowth Funds including: venture assets, vendor rights, reserves, and all other assets of such funds. Included in the acquisition were commitments to the VenGrowth Managers for the elimination of existing management agreements in connection with the disposal of their business. Payment of these amounts were approved by shareholders of both the Fund and the Merged Funds pursuant to the transaction and were structured such that no incremental costs were borne by the shareholders beyond those that existed prior to the merger.

The structure results in the following payments by the Fund to the VenGrowth Managers: (i) 1.4% per annum of the net asset value of the Fund paid on a monthly basis; (2) capital maintenance payments of 1.15% per annum paid monthly of the issue cost on all Class A transaction shares issued for the Merged Funds (excluding NGBE) Series A,B,E and F issued after December 31, 2003 and 1.65% per annum paid monthly of the issue cost on Class A transaction shares issued for Merging Funds (excluding NGBE) Series C shares. These are for finance and administration costs related to sales commission financing and terminate after the eighth anniversary of that date of original share issuance and (3) 50% of any IPA paid during the year.

9. RELATED PARTY TRANSACTIONS

The Fund receives investment advisory services provided by the Manager. These services are in the normal course of operations and are recorded at the amount of the considerations agreed to by the parties, as described in Note 8. Management fees, incentive participation amount and sponsor's fees are reported in the Statements of Comprehensive Income. Amounts due to/from the Manager and Conditional IPA payable to the Manager at period-end, if any, are reported in the Statements of Financial Position. Included in accrued expenses as at February 29, 2020 is \$61 (August 31, 2019 - \$68) due to the Manager for accrued management fees. Also see Note 5 for additional related party transactions.

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

10. INCOME TAXES

Under the Act, no income taxes are payable by the Fund on dividends received from Canadian corporations, and income taxes payable on capital gains will be fully refundable on a formula basis when shares of the Fund are redeemed or capital gains dividends are paid or deemed to be paid by the Fund to its shareholders. A portion of the income taxes payable on dividend income earned by the Fund is also refundable on payment or on a deemed payment of dividends to the shareholders.

Both the Act and the Ontario Act set minimum levels of venture investments for the Fund. If the minimum level of qualifying venture investments is not met as at the calendar year end, the Fund will be subject to defined taxes and penalties. As at December 31, 2019, the Fund is in compliance with both requirements set out in the Tax Act and the Ontario Act.

The tax amounts, if any, reflected in these financial statements are based on management's best estimate of the amounts that will ultimately be assessed. This determination is based on numerous factors such as the pace at which the Fund makes qualifying venture investments, the amount of share capital raised and redeemed, and the net income and undistributed net realized gains (losses) on sale of investments by the Fund. Should actual events not agree with the estimates made by management of the Fund, material adjustments to the tax amounts may be required.

11. FINANCIAL INSTRUMENTS

Fair value hierarchy

The following describes the three-level hierarchy for fair value measurements based on transparency of inputs to the valuation of an asset or liability as at the measurement dates. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable market inputs (Level 3). The three levels of the fair value hierarchy are:

Level 1 – Quoted Prices in an Active Market

Unadjusted quoted prices in active markets for identical assets or liabilities. This level of the hierarchy includes listed equity securities on major exchanges, highly liquid temporary deposits with Canadian Banks, as well as term deposits, bank deposit notes and corporate bonds. The fair value of instruments that are quoted in active markets are determined using the quoted prices where they represent those at which regularly and recently occurring transactions take place.

Level 2 – Valuation Techniques with Observable Parameters

Inputs other than quoted prices included in Level 1 that are observable for the asset and liability either directly (ie. as prices) or indirectly (ie. derived from prices). Since the inputs may be observable inputs but the application of a valuation model is used, these financial instruments are considered Level 2.

Level 3 – Valuation Techniques with Significant Unobservable Parameters

Inputs that are not based on observable market inputs Level 3 instruments include equities, debentures, term loans and promissory notes issued by privately-held companies. As observable prices are not available for these securities, the Fund may use a variety of valuation techniques to derive the fair value.

If different levels of inputs are used to measure a financial instrument's fair value, the classification within the hierarchy is based on the lowest level input that is significant to the fair value measurement. These amendments have been made to address the need for increased consistency and comparability of fair value measurements, and to expand the disclosure surrounding fair value measurements and do not have any impact on the net assets of the Fund.

NOTES TO FINANCIAL STATEMENTS

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

11. FINANCIAL INSTRUMENTS (Cont'd)

Financial Instruments Carried at Fair Value

The following table classifies the carrying value of the Fund's financial instruments held at fair value across the fair value hierarchy as at February 29, 2020 with comparatives as at August 31, 2019:

	Financial instruments at fair value			Total \$
	Level 1 \$	Level 2 \$	Level 3 \$	
February 29, 2020				
Venture investments	9	-	44,432	44,441
Total financial assets	9	-	44,432	44,441
August 31, 2019				
Venture investments	8	-	39,442	39,450
Total financial assets	8	-	39,442	39,450

During the periods ended February 29, 2020 and August 31, 2019 there were no transfers between any of the three levels of the valuation hierarchy.

The following is a reconciliation of Level 3 fair value measurements:

	February 29, 2020 \$	August 31, 2019 \$
Level 3 balance, beginning of period	39,442	70,866
Purchase of investments	9,359	3,032
Sale/repayment of investments	(930)	(8,664)
Change in unrealized losses	36,956	18,027
Net realized gains/(losses)	(40,395)	(43,819)
Level 3 balance, end of period	44,432	39,442
Total change in unrealized losses during the year included in the statements of Comprehensive Income for assets held at end of period	36,957	18,027

Risk management

The Fund's activities expose it to a variety of financial risks: valuation risk, market risk (which includes currency risk, interest rate risk and other price risk), liquidity risk and credit risk, as described below. The Fund's overall risk management programs seek to minimize potential adverse effects on the Fund's financial performance through a regular program of monitoring the Fund's investment positions and updating the valuation of the private company portfolios. The value of investments within a portfolio can fluctuate daily as a result of changing economic and market conditions, prevailing interest rates and company specific news relating to portfolio investments.

The Fund has managed this risk through its Valuation Committee that reviews quarterly reports from the Manager on the investment portfolio as a whole, and on determination of fair value for the venture investments including a discussion of significant events affecting the valuation of such investments. This Committee is independent from the Manager and is responsible for considering the appropriateness of the valuation policies adopted by the Fund and the Manager.

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

11. FINANCIAL INSTRUMENTS (Cont'd)

(a) Valuation and other market risk

There is a risk of loss of capital associated with all venture investments of the Fund. Valuation risk is the risk that the estimated fair values of investments for which no quoted market value exists as determined by the Manager may differ from values that would have been used had a ready market existed for these investments. Other market risk is the risk that the value of the venture investments will fluctuate as a result of changes in market prices.

Among the assets held for trading by the Fund are venture investments for which no quoted market values exist.

These investments are in privately held companies whereby fair values are estimated by the Manager using valuation techniques as described in Note 3.

Included in the Statements of Comprehensive Income for the Fund are changes in unrealized gains or losses on venture investments for which the fair values have been estimated based on assumptions that may not be supported by observable market prices. The potential effect of changing the assumptions to reasonably possible alternative assumptions on the fair value of the venture investments could result in a decrease or increase in net assets as at February 29, 2020 and August 31, 2019 as follows:

February 29, 2020		August 31, 2019	
Fair value of privately held investments \$	Decrease/Increase in net assets	Fair value of privately held investments \$	Decrease/Increase in net assets
44,432	-3.19% to +17.89%	39,422	-5.17% to +24.88%

The tables below summarize the significant unobservable inputs used in the fair value measurement of Level 3 financial instruments.

For the purposes of these tables, venture investments are broken down as debt and equity. With respect to equity investments, those investments that are expected to require further significant investment to reach cash flow break-even are classified as early stage, those which may require strategic follow-on financing to grow are classified as expansion stage, other equity investments are classified as later stage.

As at February 29, 2020

Description	Fair value \$	Valuation technique	Unobservable inputs	Reasonable possible shift in value	Change in valuation +/- \$
Debt	15,852	Estimated realizable value	Probability of collection	-8.67% to +10.72%	-1,375 to 1,700
Early stage equity	19,270	Last equity round	Discount rate	-2.14% to +43.11%	-412 to 8,306
Expansion stage equity	7,200	Comparable trading multiples	Revenue multiple	-	-
Later stage equity	-	Comparable trading multiples	EBITDA multiple	-	-
Underlying funds	2,110	Net asset value per share	Net asset value per share	-	-

NOTES TO FINANCIAL STATEMENTS

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

11. FINANCIAL INSTRUMENTS (Cont'd)

(a) Valuation and other market risk (Cont'd)

As at August 31, 2019

Description	Fair value \$	Valuation technique	Unobservable inputs	Reasonable possible shift in value	Change in valuation +/- \$
Debt	12,263	Estimated realizable value	Probability of collection	-16.72% to +24.47%	-2,050 to +3,000
Early stage equity	16,857	Last equity round	Discount rate	-4.89% to +64.32%	-824 to +10,842
Expansion stage equity	8,017	Comparable trading multiples	Revenue multiple	-	-
Later stage equity	-	Comparable trading multiples	EBITDA multiple	-	-
Underlying funds	2,305	Net asset value per share	Net asset value per share	-	-

The process of valuing investments for which no published market exists is inevitably based on inherent uncertainties and the resulting values may differ from values that would have been used had a ready market existed for the investments and may not reflect the prices at which the Fund's investments may actually be sold.

(b) Foreign currency risk

Changes in currency rates will impact the carrying value of financial instruments denominated in currencies other than the Canadian dollar. Although the Manager has flexibility to manage the foreign currency risk by hedging its currency exposure, the Manager did not engage in currency hedging during the period due to the low volume of foreign currency transactions involved. Increases and decreases in the exchange rate between the Canadian currency and the foreign currency may increase or decrease the value of the foreign currency denominated investments within the Fund.

The Fund had exposure to US dollars ("USD") as at February 29, 2020 and August 31, 2019 as follows:

February 29, 2020		August 31, 2019	
USD Financial instruments denominated in CAD	Impact of a +/-2% change in Canadian dollar relative to USD on the Net Assets of the Fund	USD Financial instruments denominated in CAD	Impact of a +/-2% change in Canadian dollar relative to USD on the Net Assets of the Fund
9,738	-195 to +195	8,826	-177 to +177

In practice, the actual trading results may differ from this sensitivity analysis and the difference could be material.

(c) Interest rate risk

The value of debt securities will be affected by changes in applicable interest rates. If interest rates fall, the fair value of existing debt securities may increase due to the increase in yield. On the other hand, if interest rates rise, the yield of existing debt securities will decrease which will lead to a decrease in fair value. The magnitude of the change will generally be greater for long-term debt securities than short-term debt securities.

Interest rate risk also applies to convertible securities. The fair value of these securities varies inversely with interest rates, similar to other debt securities. However, since they may be converted into common shares, convertible securities are generally less affected by interest rate fluctuations than other debt securities. Below is a breakdown of debt instruments by maturity:

Debt instruments by maturity date	Less than 1 year \$	1-3 years \$	3-5 years \$	Greater than 5 years \$
As at February 29, 2020	25,130	730	1,054	-
As at August 31, 2019	44,184	892	-	-

FEBRUARY 29, 2020

[in \$ thousands of Canadian dollars, except per share amounts and number of shares]

11. FINANCIAL INSTRUMENTS (Cont'd)

(d) Other price risk

Other price risk is the risk that the fair value or future cash flows of the investments will fluctuate because of changes in market prices. In addition to venture investments for which no quoted market values exist, the Fund also holds investments which are publicly traded on a recognized stock exchange.

There is market price risk associated with the Fund since as at February 29, 2020 - \$9 or 0.0% (August 31, 2019 - \$8 or 0.0%) of net assets attributable to holders of redeemable shares is invested in publicly-traded securities.

(e) Liquidity risk

Liquidity risk is defined as the risk that a fund may not be able to settle or meet its obligations on time or at a reasonable price. Fair value of investments with low liquidity may have significant variances or impairments if a fund is required to enter into a forced liquidation scenario.

The Fund is not required to redeem Class A Shares, in any financial year having an aggregate redemption price exceeding 20% of the Net Asset Value of the Fund as at the last day of the preceding fiscal year. Many of the Fund's investments are held in non-liquid securities. As such, if all shareholders were to redeem their shares at the same time, the Fund would need to liquidate these investments in order to meet the redemption requests.

The Fund was initially launched in 1999. The majority of the Fund's units are currently eligible for redemption such that if all shareholders eligible for redemption were to do so, the Fund would not have sufficient liquid resources to honour all redemptions.

In reality the Fund cannot immediately liquidate 100% of its securities practically due to the lack of a ready market for private companies and more notably, without incurring discounts to fair values which would in turn, negatively impact the NAV of the Fund.

(f) Credit risk

Credit risk is the risk that a debt security issuer or counterparty cannot meet its financial obligations, such as making interest payments or principal repayments. Issuers that have suffered adverse changes in financial conditions may receive a low credit rating reflecting a high credit risk. A change in the credit rating of the debt security can affect its liquidity and may result in an impairment of its fair value. The Manager manages credit risk by investing the bond portfolio of the Fund in high quality investment grade debt obligations with a minimum rating of "A" at the time of investment. Currently, the Fund does not hold such debt instruments in its portfolio.

The Fund holds a portion of its investment portfolio in private debt instruments which can be considered high risk debt instruments. As at February 29, 2020, the Fund had \$25,860 (August 31, 2019 - \$45,076) invested in these assets. These instruments are not rated by any of the market bond rating services and are also subject to valuation risk as described in part (a) above.

The Fund has provided guarantees of \$374 to investee companies (August 31, 2019 - \$444). Should the guarantees be drawn, the amounts would be recorded as follow-on investments (see Note 5).

12. SUBSEQUENT EVENT

Since the beginning of 2020, financial markets have had significant downturn as a result of COVID 19, with investors attempting to gauge the severity of the widening epidemic and the implications for global growth. As it is difficult to predict the duration and magnitude of the epidemic, plenty of uncertainty prevails at this time. It is expected that the financial markets will remain extremely fragile until there is more visibility surrounding the COVID 19 crisis and, as a result, it is too early to reliably measure the potential impact and severity of this crisis on the financial results.
